About Trito

- Private MA “C” Corporation
- Profitable Since Inception (1992)
- 45% Sustained Annual Growth
- Professional Staff of 80+
- Active Management Has Controlling Equity
- Employees Are Active Equity Participants in Stock Option Plan

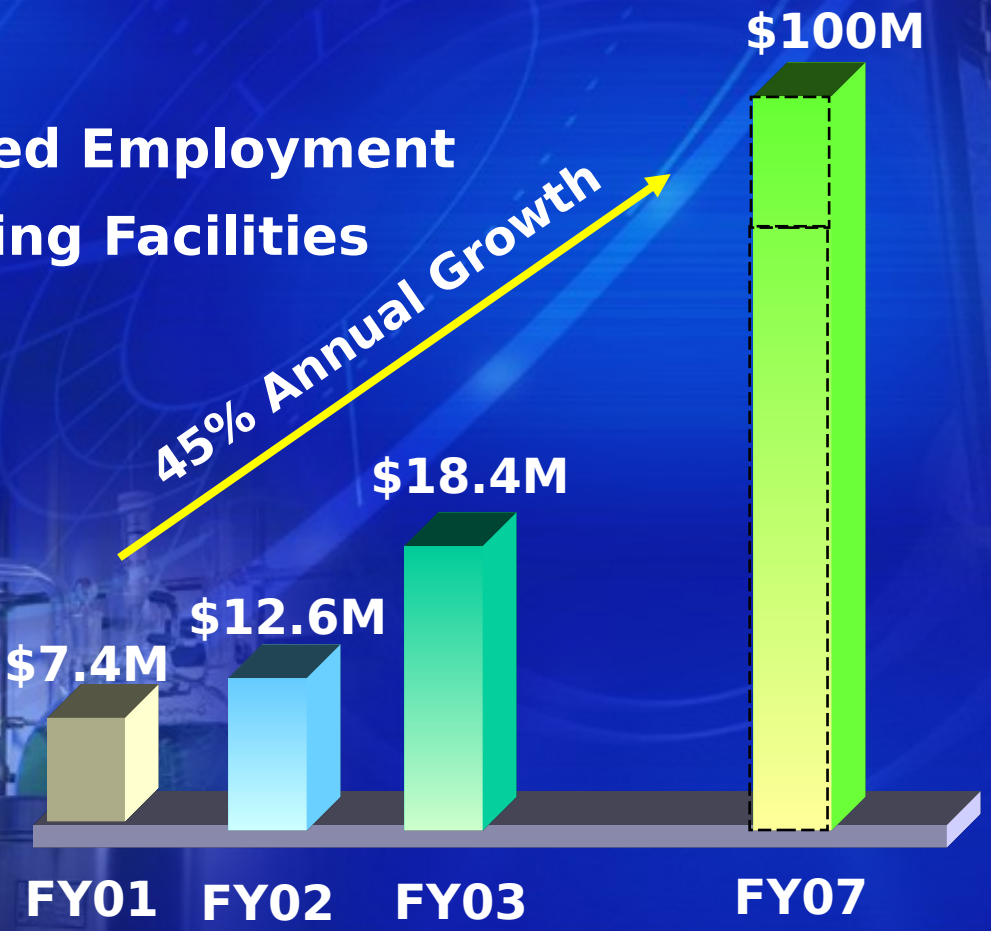
Triton's Mission

- Develop Breakthrough, Value-Added, High Growth, Specialty Materials
- Understand the Value-Chain
- Engage Strategic Partners
- Position for Win-Win Strategy

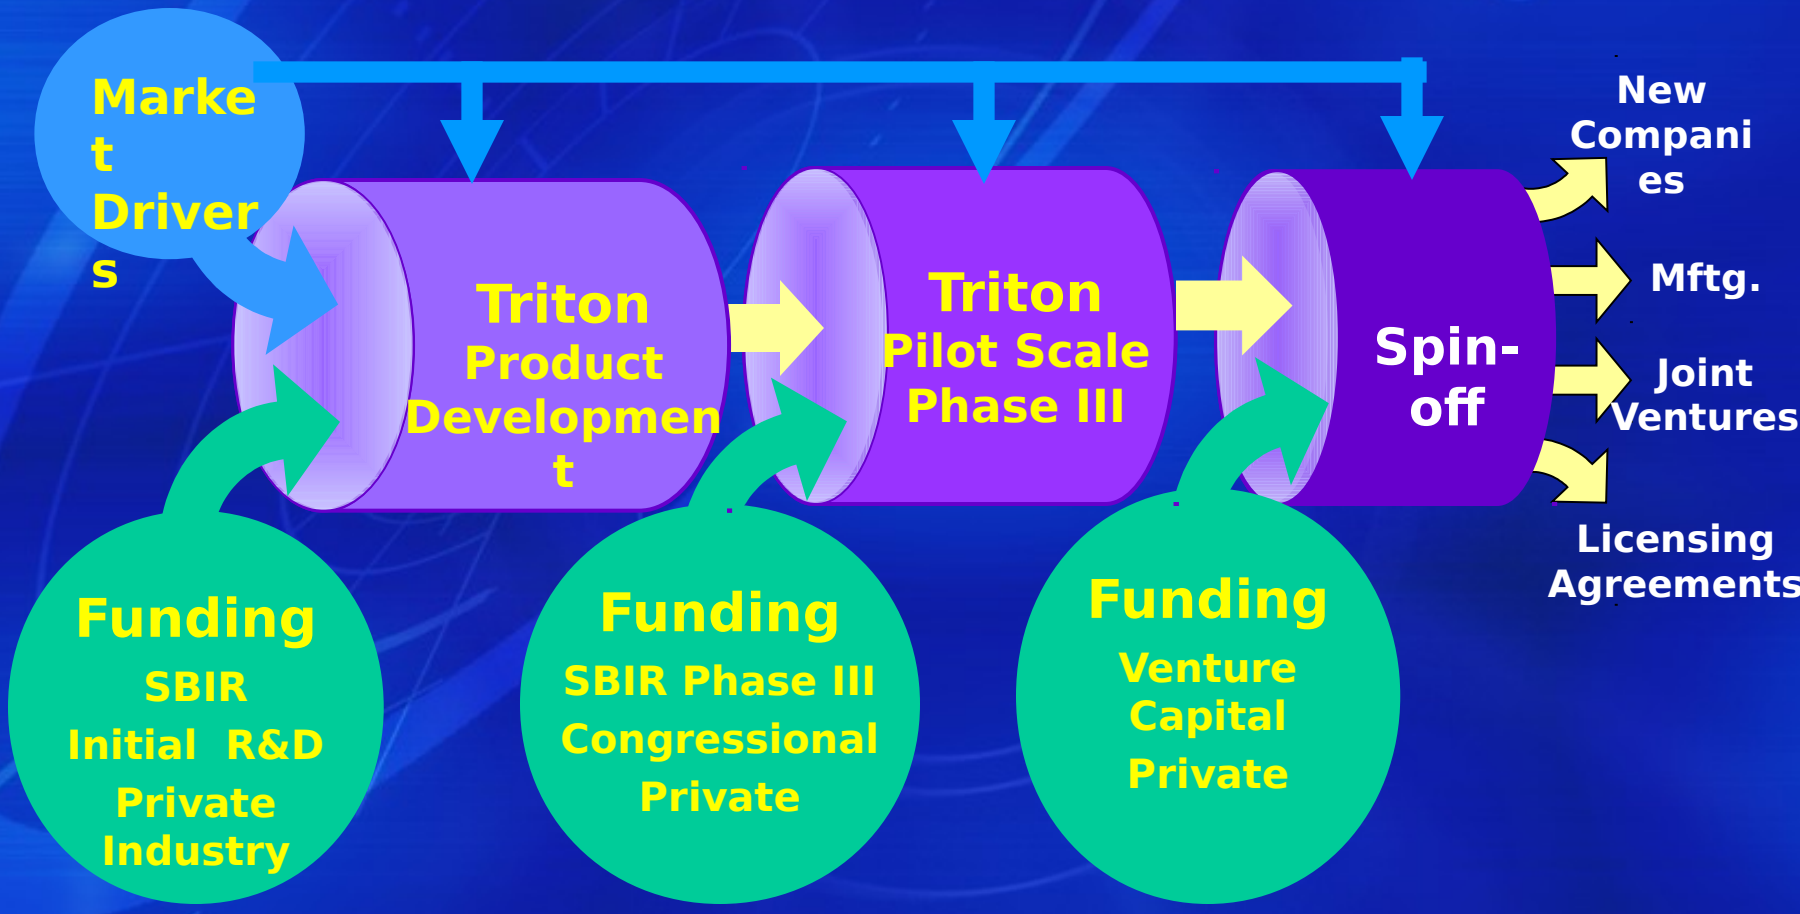
Accomplishments in 9 Year Solid Growth

Sustained Revenue Growth Since 1992

- Increased Employment
- Expanding Facilities



Triton's Business Model



Successful Triton Spin-offs

SBIR Program	Technology Developed	New Company Spin-offs*
NASA - Develop Space Durable Polymers	TOR-CP Conductive Polymer	ELECON — Semiconductor Plastics
DTRA - Develop Chemical Agent Detectors	Real-Time Sensors for Aqueous Environments	Sensera — Real-time Bio-Sensors
Army - Develop Concept to Bond Composites	SmartBond™ - Plastic Composite Bonding	TRIBOND — Induction Welding

*Spin-off Investors Include: Boeing, Bayer Corp., Siemens, Henkel

Triton Technology in Transition

SBIR Program	Technology Developed	Successful
Navy -Protective Coating for Pilot Visors	NanoTuf™ Abrasion Resistant Coating	All Protective Eyewear, Canopies, CB Protection
Air Force & Army - NanoEngineered Materials	Ormlas™ Barrier Resistant Polymer	Packaging, CB Protection, Footwear

Triton Technology in Transition

SBIR Program	Technology Developed	Successful
Navy– Gun Barrel Improvements of Advanced Gun System	Improved Metal Matrix Composites for Structural Jacket	 Reinforced Aluminum Structural Jacket for the AGS Barrel
MARCORSYSCOM – Resin-Transmitter for Covert Non-lethal Tagging	Triton Non-Lethal Tagging Technology	Tag Friend or Foe, Track Logistical Assets on the Battlefield or in MOUT

Our Transition Process Succeeds Because We…

- Pay Attention to Market Drivers
- Engage Customer/End-User Early in the Development Cycle
- Utilize Common Manufacturing Process
- Use Off-the-Shelf Materials
- Reduce Time to Bring New Hardware to System Integrators
  - Today is months not years
  - In future it will be weeks not months
